

The American Board of Dental Public Health
Incorporated 1950

INFORMATIONAL BROCHURE

Sponsoring Organization:

American Association of Public Health Dentistry

Revised May 2021

Email: Executive.Director@ABDPH.org

I. ORGANIZATION

The American Board of Dental Public Health was incorporated under the laws of the State of Colorado in July 1950. The Board was organized in accordance with the Requirements for Approval of Examining Boards in Dental Specialties of the American Dental Association's Council on Dental Education and Licensure. The American Dental Association formally recognized Dental Public Health as a dental specialty in October 1950 and reviewed the Specialty in 1986, 2001, 2011, and 2021. The American Dental Association House of Delegates officially designated the American Board of Dental Public Health as the national examining and certifying agency for the specialty in October 1951. The Board is a not-for-profit corporation. The Directors of the Board receive neither salaries nor compensation for services to the Board.

II. PURPOSES OF THE BOARD

The principal purposes of the Board, as defined in its Articles of Incorporation, are:

- A. To protect and improve the public's health by the study and creation of standards for the practice of dental public health in all its aspects and relationships.
- B. To grant and issue dental public health certificates to dentists who have successfully completed the prescribed training and experience requisite for acquiring the special knowledge and ability needed for the practice of dental public health; and
- C. To ensure continuing competency of Diplomates.

III. DEFINITION OF THE SPECIALTY

Dental Public Health is the science and art of preventing and controlling dental diseases and promoting dental health through organized community efforts. It is that form of dental practice that serves the community as a patient rather than the individual. It is concerned with the dental health education of the public, with applied dental research, and with the administration of group dental care programs, as well as the prevention and control of dental diseases on a community basis. Implicit in this definition is the requirement that the specialist have broad knowledge and skills in public health administration, research methodology, the prevention and control of oral diseases, and the delivery and financing of oral health care.

IV. ELIGIBILITY

The term Board-eligible describes the status of a candidate whose application, credentials, and supporting documents have been reviewed and approved by the American Board of Dental Public Health (ABDPH). Requirements for eligibility to be examined by the Board are as follows:

- A. Moral and ethical standing in the dental profession satisfactory to the Board.
- B. Graduation from a school of dentistry accredited by the Commission on Dental Accreditation or from a Canadian dental school with accreditation recognized by the Commission.
- C. Graduates of schools from other countries must possess equivalent educational qualifications.
- D. Advanced education and professional experience in public health that shall include

successful completion of at least two years of advanced educational preparation for the practice of dental public health (See section on Educational Preparation).

Members of the Board are not authorized to provide informal opinions about the eligibility of candidates. The Board shall determine eligibility only after reviewing all information contained in a candidate's application. Each candidate shall comply with the Board's regulations in effect for the year in which the examination is held, regardless of the filing date of the original application.

Applicants declared not to be Board-eligible may reapply within three years of the previous filing date without paying an additional application fee. Applicants declared to be Board-eligible must present themselves for the Certification Examination within a period of five years to retain their Board eligibility.

Candidates who lose their eligibility as a result of not taking and passing the Board Certification Examination within five years may request one additional five-year period of eligibility upon payment of an additional fee.

Although not required, the Board encourages membership in the American Association of Public Health Dentistry — the sponsoring organization of the ABDPH — the American Dental Association, the American Public Health Association, the Hispanic Dental Association, the National Dental Association, and the Society of American Indian Dentists.

V. EDUCATIONAL PREPARATION

The primary reason for the educational requirements is to ensure that individuals are prepared for an effective career in all facets of Dental Public Health practice. Another important reason is to enable candidates to successfully complete an examination that measures competencies of the Specialty.

The basic guide governing the Board's evaluation of a candidate's preparation is the requirement of the Council on Dental Education and Licensure of the American Dental Association that a candidate successfully complete two years of an advanced accredited program specifically designed for the study of Dental Public Health. The requirement of two years of advanced preparation can be satisfied by:

- A. At least **two** academic years of study in a program accredited by the Commission on Dental Accreditation that leads to a master-level or doctoral-level graduate degree in Dental Public Health specifically, the course content of which shall include biostatistics; epidemiology; health care policy and management; environmental health; and behavioral sciences.
- B. Completion of a graduate-level degree in public health, the course content of which shall include biostatistics, epidemiology, health care policy and management, environmental health, and behavioral sciences. The graduate degree is typically the Master of Public Health (MPH), but related degrees are acceptable, including doctoral-level degrees, if they meet the content requirements. Graduate study programs in the U.S. must be accredited by an agency recognized by the U.S. Department of Education at the time the degree is conferred. Graduate degrees from outside the United States are also acceptable, providing that they are equivalent to U.S. degrees and coursework meets the content requirements. Following attainment of a graduate degree in

public health, the candidate must successfully complete a residency in Dental Public Health accredited by the Commission on Dental Accreditation.

The Board will grant credit toward satisfying the educational requirements for applicants whose degree programs did not include course work in biostatistics, epidemiology, health care policy and management, environmental health, or behavioral sciences after the candidate submits documentation of satisfactory completion of one graduate level academic course work in each of these five core areas. Such coursework must be completed prior to successful completion of the Commission on Dental Accreditation-accredited Dental Public Health residency program.

VI. DENTAL PUBLIC HEALTH RESIDENCY

Dental Public Health Residency Programs are accredited by the Commission on Dental Accreditation. Their length must be at least 12 months full-time or the equivalent in part-time. Part-time residencies may not exceed twice the length of a full-time residency. Click [here](#) for the list of currently [Accredited Dental Public Residency Programs](#).

The applicant's residency experience should include planned instruction, observation and active participation in a comprehensive, organized public health program that includes training on all aspects of dental public health.

VII. EXAMINATION

Once the educational preparation is complete, a candidate can apply to the ABDPH for Board eligibility and examination.

The examination is administered annually in various locations as determined by the Board. Examination sites are selected one year in advance and posted on the American Association of Public Health Dentistry website, www.AAPHD.org. In the event of public health emergencies or other extenuating circumstances, the Board may administer the examination by using virtual technology.

Applicants will be notified of the specific dates and site of the examination at least 60 days in advance. The Board generally administers the examination in April or May, on the Thursday through Saturday immediately preceding the National Oral Health Conference. The Qualifying Examination generally is scheduled on the last day of the examination period, Saturday, to allow candidates to attend the National Oral Health Conference that follows.

The American Board of Dental Public Health examination for certification as a Diplomate is a two-step process: (1) the Qualifying Examination, and (2) the Certification Examination.

The Qualifying Examination is a comprehensive written examination that is comprised of multiple-choice questions (80% of score) and short-answer questions (20%). The written examination is designed to test the candidate's knowledge of the theory and practice of Dental Public Health. Candidates must score at least 70% on the Qualifying Examination to pass and be able to proceed to the Certifying Examination. Candidates may attempt the written Qualifying Examination near the end of their specialty training program, provided that they have completed at least 75% of the program.

The Certifying Examination has 3 sections: (1) Written Project Reports (30%); (2) Oral Examination on the Project Reports (30%); and (3) Oral Examination on an Assigned

Problem (40%). General knowledge will be tested within all sections of the examination. Each section of the examination is scored separately, and the scores are weighted for a final score. A weighted final score of at least 70% is required for the candidate to pass the Certification Examination, with a minimum score of 60% on each section of the examination. Details on the sections of the examination are available at the ABDPH website: www.aaphd.org/abdph.

Upon request, a candidate may receive from the Executive Director the results for each section of the examination and the final score. Candidates who would like to receive their exam scores must submit a written request to the ABDPH Executive Director within 60 days of completing the examination.

The Board always reserves the right to change the fee structure, content, and procedures of the ABDPH Examinations. Fees partially offset the costs of processing the application, the examination, and certification.

VIII. REEXAMINATION

Candidates who fail any part of the Qualifying or Certifying Examinations can apply to be reexamined. Relevant reexamination fees at the time of reexamination apply. Other relevant information includes:

- A. Candidates must pass the Qualifying Examination with a score of at least 70% to be able to apply for Board eligibility and the Certification Examination. A candidate who fails the Qualifying examination can retake it up to two additional times with payment of the applicable fee.
- B. Candidates for the Certification Examination must receive passing scores (60% or higher) on their submitted written Project Reports to proceed to the rest of the examination.
- C. Candidates who fail any part of the Certification Examination shall be accepted for one reexamination by the Board.
- D. If the candidate is unsuccessful on one section of the Certification Examination, that section of the examination needs to be retaken.
- E. If the candidate is unsuccessful on two or more sections of the Certification Examination, it would be at the discretion of the Board as to what the requirements would be for reexamination. At a minimum, the sections failed would need to be retaken.
- F. If an overall average score of 70% is not achieved on the Certification Examination, it is considered a failure. It would be at the discretion of the Board as to what the requirements would be for reexamination.

Candidates who fail to pass the reexamination shall be required to submit satisfactory evidence to the Board of additional formal training or supervised field experience in Dental Public Health before they can be readmitted for the Certification Examination.

IX. APPLICATIONS

Separate applications for eligibility and examination are available, depending on the applicant's status, with their corresponding application deadlines.

A. APPLICATION FOR QUALIFYING EXAMINATION

A candidate must take and pass the Qualifying Examination prior to applying for board eligibility and the Certification Examination. Candidates may apply for the Qualifying Examination after completion of at least 75% of their advanced dental public health specialty educational program. Applications for the Qualifying Examination must be received by December 1 of the year prior to that in which the applicant wishes to take the examination. The application must be signed by the applicant and submitted electronically as a Word document and a portable document format (PDF) file along with copies of credentials and supporting documentation to the Executive Director, Executive.Director@ABDPH.org. The application fee payable to ABDPH must be submitted to the Executive Director. The application for ABDPH Qualifying Examination is available at www.aaphd.org/abdpdph.

B. APPLICATION FOR CERTIFICATION EXAMINATION

The ABDPH Application for Board Eligibility and Certification-Full Examination must be received no later than August 15 of the year prior to that in which a candidate wishes to take the examination. See the American Association of Public Health Dentistry Home Page, www.aaphd.org, link to the ABDPH Web Page under [ABDPH Application for Board Eligibility and Certification-Full Examination](#).

The application must be signed by the applicant and submitted electronically as a PDF file along with copies of supporting documentation to the Executive Director at Executive.Director@ABDPH.org. The supporting documentation to be sent electronically as a PDF file includes the applicant's curriculum vitae, applicant's certificates or degrees in dentistry and public health, certificate of a completed residency in dental public health (when a residency serves as a portion of the training), and any other necessary documentation. If the graduate degree is not an MPH or accredited by CODA or if such degree is from an educational institution outside the United States or Canada, the candidate should include electronic copies of the course transcripts. If the courses are not clearly labeled as one of the required areas in Dental Public Health described above, the ABDPH will request the candidate to submit the syllabi of the courses.

The total fee for application and examination is paid in two installments. The fee for application of eligibility is due at the time of submitting this application. The fee for application is payable to ABDPH and should be sent to the ABDPH Executive Director.

The ABDPH will review candidates' applications and qualifications and notify them of eligibility no later than September 25.

- Once declared Board Eligible, a candidate must take and pass the Certification Examination within a five-year period.
- An eligible candidate must submit separate portable document format (pdf) files for each of the two project reports by October 1 of the year before the candidate wishes to take the examination. In addition, the applicable examination fee payable to ABDPH must be sent to the Executive Director at Executive.Director@ABDPH.org. The two project reports constitute the first part of the Certification Examination.

X. PROCEDURE FOR CANCELLATION OF BOARD EXAMINATION:

- A. Qualifying Examination: If a candidate pays the fee to take the Qualification Examination and does not do so, the candidate forfeits the fee.
- B. Certification Examination: If a candidate pays the full fee (ABDPH eligibility fee + Certification

Examination fee):

1. The ABDPH eligibility fee is valid for 5 years.
2. If candidate postpones the Certification examination after September 1, the candidate must inform the Executive Director of the intent to postpone the exam as soon as possible. Barring any extenuating circumstances, submission of an additional exam fee will be required when the candidates decides to take the examination.

XI. APPEAL MECHANISM

A candidate who fails the Qualifying or Certification Examination has the right to appeal as provided for in American Board of Dental Public Health Policy and Procedures for Appeal.

1. Actions Subject to Appeal

Any appeal to the American Board of Dental Public Health must be based on one of the following circumstances: (1) there was a procedural or clerical error during the administration of the examination; or (2) there were extenuating circumstances that may have affected a candidate's performance during the examination. The Board will not consider appeals in the absence of one of the circumstances described above. Examinations will not be re-scored.

Requests for additional information regarding examination results are not considered part of the appeal process. Exams will NOT be returned to the applicant for review for any reason, including any appeals. The correspondence for such information becomes part of the candidate's or applicant's file but does not modify or alter any decision made by the Board.

2. Communication Regarding an Appeal

All correspondence regarding an appeal will be through the ABDPH Executive Director.

3. Submission of an Appeal

Appeals must be submitted in writing to the ABDPH Executive Director within fourteen (14) days of completion of the examination. The written appeal should be dated, identify in concise terms the decision being appealed, and provide a brief outline of the reasons for the appeal. No decision shall become final while an appeal is pending or until the fourteen (14) day period for filing notice of appeal has elapsed. The appeal will be reviewed to see if it meets the criteria. The appellant will be notified in writing of the receipt of the appeal, and informed if the appeal will receive further review. If the appeal merits further review, the Board will respond within sixty (60) days from receipt of appeal.

Each appeal is subject to a non-refundable fee in the amount of \$300.

4. Appeals Review Process

The appeals process begins with a review of the submitted appeal by the Appeals Committee, which consists of two Board Directors and the Immediate Past-President, once removed. The Appeals Committee will review the appeal and all relevant facts and submit their recommendation to the Board. The final decision will then be transmitted by the Executive Director to the appellant.

If the decision is not acceptable to the appellant, the appellant has thirty (30) days to resubmit the appeal. This second appeal is reviewed by an Appeals Panel consisting of

three past presidents (not including the past-president serving on the Appeals Committee). The Appeals Panel is selected by the Board. The Appeals Panel has sixty (60) days to process the appeal. If the appeal necessitates a hearing, the hearing will be scheduled at the next annual meeting of the Board.

The appellant will incur the costs of their travel and the Board will cover the travel costs for Appeals Panel members. The recommendation of the Appeals Panel will be provided to the Board who in turn will review it and submit their second and final response to the appellant.

XII. FEES

The following are the 2021–2022 schedule of fees:

Qualifying Examination	\$450
Application for ABDPH Eligibility	\$350
Application for ABDPH Certification Examination	\$1,000
Re-examination Fees	
Qualifying Examination	\$450
Oral Examination (one section)	\$400
Full Certification Examination	\$1,000
Recertification Fees	\$250
Appeal Fee	\$300

XIII. ANNUAL REGISTRATION

A registration fee is due upon passing the certification examination, and an annual registration fee is due in January of each year to remain an active Diplomate of the American Board of Dental Public Health (ABDPH). As a certifying Board, we are required by the American Dental Association to collect annual registration fees from each Board Diplomate. The annual registration fee for the ABDPH is published each year with registration materials. If the annual registration fee is not paid, the Board of Directors will declare the Diplomate not in good standing. Lack of good standing results in the following actions taken by the Board: (1) The Diplomate's name will not appear in the list of Active Diplomates on ABDPH Home Page, www.aaphd.org/ABDPH; (2) the Diplomate's name will not be included in the list the Executive Director sends to the American Dental Association's Council on Dental Education and Licensure each year; and (3) verification requests for a Diplomate's status as a Board Diplomate will include "not in good standing" in the reply. In order to be reinstated to Active status, the Diplomate must pay the unpaid annual registration fees and any assessed reinstatement fees.

Active Diplomates receive a copy of the Board's annual financial report during the Annual Meeting of the Board or may request it in writing from the Executive Director.

XIV. VERIFICATION OF BOARD STATUS

The American Board of Dental Public Health (ABDPH) requires a fee per verification payable to the **American Association of Public Health Dentistry (AAPHD)- Memo ABDPH Board Verification**. The request should be submitted in writing and must include a copy of the general release of information that has been signed or an electronic signature by the dentist whose Board status is being verified. Electronic verification of the dentist is the preferred method and is faster than U.S. mail. If a credit card is used contact Sandi Steil listed below.

The verification request and payment should be sent by U.S. mail or electronic mail to: **Sandi Steil**,

Membership Coordinator, ssteil@associationcentral.org, American Association of Public Health Dentistry (AAPHD), 3085 Stevenson Drive, Suite 200, Springfield, IL 62703; Phone: 217- 529-6941; Fax: 217-529-9120. Additional information is available on the ABDPH website at www.aaphd.org/abdph under “Verification of Active Diplomates.”

XV. CERTIFICATION

Candidates who successfully complete the Certification Examination will be issued ten-year time-limited certificates signed by the Directors of the Board, which recognize their special knowledge and ability in Dental Public Health. Persons certified by the Board shall be designated as Diplomates of the American Board of Dental Public Health.

XVI. RECERTIFICATION

A. Background

The American Board of Dental Health recognizes that continued competency in the specialty requires life-long learning. To promote that concept, in 2000 the ABDPH implemented a recertification program for its Diplomates. The goal of recertification is to assure the ability of the Diplomates to provide the highest quality of service to the public and the profession. Diplomates certified in 2000 or later are initially certified for ten years and can maintain that certification through payment of prescribed annual registration fees. To be eligible for recertification, Diplomates must comply with the provisions of the mandatory continuing education requirement.

The Recertification Program is voluntary for those individuals who were Diplomates of the ABDPH as of January 1, 2000, although the ABDPH strongly urges all Diplomates to participate in the program. All Diplomates are required to pay the annual registration fee in order to remain in good standing. Further, Diplomates must maintain the moral and ethical precepts required for initial certification and annual registration. Recertification information is available from the ABDPH website at www.aaphd.org/ABDPH, under “ABDPH Continuing Education Record.” For further information, contact the ABDPH Executive Director at Executive.Director@ABDPH.org.

B. Requirements for Recertification

The overall qualifying standard for recertification is for Diplomates to acquire at least 150 hours of continuing education units (CEUs) in Dental Public Health during a ten-year period. The program is summarized below:

1. Recertification by the Board requires completion of an average of 15 hours of continuing education annually an approved CERP-recognized or a public health organization. Scholarly activity, such as manuscripts published in peer- reviewed journals, presentations at scientific meetings and providing continuing education courses and lectures may be counted toward those 15 hours.
2. The 10-Year Recertification Fee is payable to ABDPH and should be sent to the ABDPH Executive Director. There is no fee for a Diplomates certified before 2000 to apply for Recertification.
3. Diplomates are responsible for maintaining their own records including keeping copies, documentation, and summaries of their CEUs forms to document compliance with the Recertification Process.
4. The Board has a voluntary recertification program for all Diplomates certified prior to January

- 1, 2000 and those Diplomates are strongly encouraged to participate.
5. Upon review of the Diplomates' recertification credentials, the American Board of Dental Public Health will issue a supplemental certificate that will remain valid for ten years.
6. The recertification process includes the following steps:
 - a) Complete the ABDPH Recertification Application-20XX (where XX is the year of recertification)
 - b) Complete the document ABDPH Summary Report of Continuing Education Units (CEUs) for the 10-year period ending in 20XX. That form is available at www.aaphd.org/ABDPH.
 - c) Complete Continuing Education Units (CEUs) records and documentation.
 - d) Prepare PDF files of supporting documentation for your CEUs earned in the ten years ending in 20XX.
7. An ABDPH Standards and Recertification Committee (SRC) reviews the documentation and audits Diplomates. The SRC consists of two active Diplomates, one current Director of the Board, and the ABDPH Executive Director. The SRC reviews the number of credits and reports it to the ABDPH. The SRC audits 10% of Diplomates to be recertified. Diplomates should send electronic copies of CEUs to the ABDPH Executive Director only if they informed that they are to be audited.
8. Following approval of the recertification application and the SRC audit, the Board reviews the information, approves individual recertification, and issues new ten-year certificates.

C. Guidelines for Continuing Education Credits

Acceptable continuing education includes learning activities that contribute to maintaining or enhancing competency in Dental Public Health. The following types of activities are acceptable for credits:

1. Attendance at or delivery of a formal continuing education course. Documentation or letters of completion from the American Association of Public Health Dentistry, International or American Associations for Dental Research, American Public Health Association, Association of State and Territorial Dental Directors, and other recognized national and international organizations that have institutionalized continuing professional development programs related to the competencies in Dental Public Health are acceptable.
2. Documentation or letters of completion from other sponsors of continuing education relevant to the field of Dental Public Health are acceptable provided the number of hours of activities can be directly linked to the Dental Public Health Competency Statements (*J Public Health Dent* 2016; 76 (Suppl):S3-S28).
3. Authorship of publications related to Dental Public Health. A publication is defined as a book, a chapter of a book, or a paper published in a professional journal. Publications of manuals, workshop proceedings, and background papers also are acceptable. The acceptable number of credits will vary from 5 to 10 depending upon the nature of the publication.
4. Attendance at formal lectures, symposia, workshops and conferences relevant to the field of Dental Public Health. This activity will be given credit provided the material presented is

organized around and directed toward identified competency statements. The number of credits will be equal to the number of hours attended.

5. Completion of individualized continuing education instruction. Individualized instruction is defined as a course of study that is structured and organized toward accomplishing competency in Dental Public Health. The instruction must include a method for providing feedback to the learner on performance. Documentation of the number of credits must be available for audit.
6. Learning activities that are repeated on a periodic basis will be given credit only once in a ten-year period. The routine performance of teaching duties in an undergraduate or graduate curriculum or the routine participation in organizational meetings will not be given credits.

D. Appeal Process

Diplomates may appeal the report of the SRC relative to the continuing education credits. Appeals must be submitted in writing to the ABDPH Executive Director with necessary documents within sixty (60) days of the notification. The appeal should clearly identify the areas of disagreement and provide the supporting documents. The appeal will be reviewed by the Board and responded to within sixty (60) days of the receipt of the appeal.

E. Failure to Comply with the Recertification Requirements

The ABDPH, at its discretion, may issue a conditional recertification to a Diplomate who fails to meet the continuing education requirements but who agrees to make up any deficiencies and take any additional credits that the ABDPH may require.

A Diplomate who is notified of the denial of recertification for failure to submit evidence satisfactory to the ABDPH may be subject to disciplinary actions pursuant to policies of the ABDPH. Failure to meet the continuing education requirements will be considered a gross departure from the tenets of sound public health practice. In such situations, the Board has the power to revoke certificates.

XVII. LISTING OF DIPLOMATES

A listing of persons to whom certificates have been issued by the Board is prepared periodically and placed on file in the office of the Director of the Council on Dental Education and Licensure of the American Dental Association. Copies of the list are available upon request from the ABDPH Executive Director or download from the ABDPH website at www.aaphd.org/ABDPH under "ABDPH Diplomates".

XVIII. LIFE MEMBERSHIP

Diplomates who are completely retired from the practice of Dental Public Health may submit an application for Life Membership, which is available at www.aaphd.org/ABDPH under "Application Life Membership". Diplomates apply to the ABDPH for Life Membership in accordance with and subject to the procedures and regulations of the Board. The applicant must be in good standing, all annual registration fees must be paid up to the date of application, and the applicant must have maintained the moral and ethical precepts of the specialty. It is the responsibility of the applicant to inform the ABDPH Executive Director of any changes in contact information. The ABDPH will

review applications for Life Membership, and if it is approved, the Board will issue a Certificate of Life Membership.

A. The following categories of Diplomates are eligible for Life Membership:

1. Diplomates who are completely retired from the practice of Dental Public Health and have been active Diplomates for 20 years or more. (No application fee).
2. Diplomates who are completely retired from the practice of Dental Public Health, have been active Diplomates for 10 years or more, and are age 65 years or older. (No application fee).
3. Diplomates who have a combination of the following factors: retired from the practice of Dental Public Health, are younger than 65 years of age, and have been active Diplomates for fewer than 10 years. These Diplomates are eligible for Life Membership by paying a one-time fee.
4. Diplomates retired from the full-time practice of Dental Public Health but practicing no more than 200 hours per year (0.1 FTE). They can become eligible for Life Membership by paying a one-time fee.

B. Benefits of Life Membership:

1. Listed on ABDPH website.
2. Receive ABDPH Newsletters.
3. Pay no Annual Registration Fees.
4. Receive the annual Invitation and Announcement to attend the Diplomates Annual Dinner and Business Meeting at same cost as other Diplomates, and
5. Other benefits that the ABDPH deems appropriate.

XIX. POLICY ON DISCRIMINATION/HARRASSMENT

The American Board of Dental Public Health does not condone or accept discrimination or harassment based on age, gender, race, creed, sexual orientation, place of education, or country of origin or residence, against candidates or Board Diplomates. The ABDPH will formally consider all complaints filed in writing and signed by any candidate or Board Diplomat made to any Director of the Board or the Executive Director. The ABDPH will take necessary actions to remediate validated claims.

XX. CANDIDATES WITH DISABILITIES

The American Board of Dental Public Health complies with the American with Disabilities Act by ensuring that persons with disabilities have physical access to the testing facilities used by the Board. Further, the Board will administer the examination in a manner that can accommodate a candidate with disabilities. The application forms provide space for indicating a disability and the Board solicits suggestions as to how the disability can be best accommodated.

XXI. AAPHD FOUNDATION'S LOTZKAR FUND

The Lotzkar Fund was established in 2003 to honor Dr. Stanley Lotzkar for his 21 years of exemplary service as Executive Secretary of ABDPH and his wife Phyllis Lotzkar's support for the Board. The Lotzkar Fund is used solely to advance the mission and objectives of the American Board of Dental Public Health and is administered by the American Association of Public Health Dentistry Foundation.

Funding criteria for projects support by the Lotzkar Fund are:

1. To support development of new initiatives of the Board;
2. To support maintenance of standards and competency in Dental Public Health; and
3. To support curriculum development in Dental Public Health.

All donations can be made to: AAPHD Foundation Lotzkar Fund, 3085 Stevenson Drive, Suite 200, Springfield, IL 62703. Tel: 217-529-6941.

XXII. ABDPH CONTACT INFORMATION

The Board may be contacted by email at executive.director@ABDPH.org.
